About CEO

Jarosław Pilarczyk is a CEO of Skyrise from 2013, previously serving as CEO of BT Signaal Poland and CEO and Co-owner of TA Group. He is an entrepreneur with ICT background and strong focus on B2B and R&D projects in intelligent transportation, vehicle access automation, mobility solutions and smart payment integration. His goal is to always combine software development with business development mindset to improve the benefits from new software implementation in companies. In his work with programming teams he uses Agile Project Management practices from Scrum and Kanban to provide the best results for our Customers. He has been also involved in the development of startups as an advisor sharing knowledge and experience with early-stage tech companies.
